

SNOW REMOVAL

The Public Works Department requests the following:

- 1. That snow from driveways and sidewalks be blown or dumped onto your property instead of onto the streets, sidewalks, boulevards or other individual's property;**
- 2. That those removing snow from property adjacent to Grand Avenue refrain from pushing the snow into the ridge piled on the street as foreign objects such as rocks, wood, concrete, etc., have been known to cause serious damage to snow removal equipment; and**
- 3. That those removing snow from Grand Avenue sidewalks in front of businesses throw snow onto the street well away from the gutter as this helps to keep the gutters from becoming hard-packed by parked vehicles before town crew can do final cleanup**
